

Letter of interest and consent

Dear: Isaiah Banach

We are individual home owners located inside the regionally identified urban expansion study in Niagara Falls with a common interest to someday have our lands placed inside the urban boundary and to be developed.

Our lands are located on Kalar Road, Beaverdams and Garner area. We come together as a group to give permission for Michael Allen to speak on our behalf with the Region regarding the Urban expansion study and consideration and also give the region permission to relay information back to Michael which involves our lands.

Below is a list of properties, locations and owners. By signing below we agree for Michael Allen to enquire about our lands.
