

# Niagara Irrigation Initiative Project

## Notice of a Workshop for Growers, Producers, Greenhouse Operators, and Agricultural Landowners & Public Information Centre

Feasibility, Costing, and Preliminary Design Study for a New Piped Irrigation System in Lincoln and West St. Catharines

### The Study

The Study is an undertaking to consider the feasibility, costs, and preliminary design of a communal irrigation system in the areas below the Niagara Escarpment between Beamsville and St. Catharines. This Study will advance previous irrigation work, recommend the most efficient, environmentally sound and cost-effective design, and provide the foundational technical, financial, and engagement work needed to move toward detailed design and implementation.

### Map of Study Area

### Join Us – Your Input is Important

The Project Steering Committee, supported by Niagara Region Staff and Project Consulting Team is hosting a Workshop (3:00 to 5:00 p.m.) and a Public Information Centre (6:00 to 8:00 p.m.).

**Wednesday, December 3, 2025**  
**Ball's Falls Conservation Area: Glen Elgin Room**  
**3292 Sixth Avenue**  
**Lincoln, ON**

### Workshop: 3:00 to 5:00 p.m. (Formal workshop with presentation starting at 3:00 p.m.)

- The purpose of the session is for growers, producers, greenhouse operators, and agricultural landowners who have an interest in irrigation to receive updates regarding technical work completed since the kick-off session in July 2025 and to provide input on the problem and opportunity statement, water demand, evaluation criteria and high-level list of alternatives under consideration.

- The session will include a presentation and interactive discussions. While invitees are welcome at both sessions, it is highly recommended that growers, producers, greenhouse operators, and agricultural landowners attend this workshop for more focused and technical discussions.

### Public Information Centre: 6:00 to 8:00 p.m. (Drop-in anytime)

- Members of the public and interested people are invited to attend, learn about the importance of irrigation in Niagara and provide feedback on the problem and opportunity statement, evaluation criteria and a high-level list of alternatives under consideration. This open house drop-in event will feature display boards and a survey. Materials will also be available on the Study webpage following the event: <https://www.niagararegion.ca/projects/irrigation-initiative/>

## Contact Us

If you are interested in the Study but cannot attend, please e-mail us at: [irrigation@niagararegion.ca](mailto:irrigation@niagararegion.ca) and we will include you on the contact list.
