

Incredible Journey Bracelet

Materials Needed

- String
- Beads: White (3), Light Blue (3), Brown (3), Dark Blue (3), Green (3), Yellow (3), Clear (3)

Instructions

Make a bracelet to help you remember the steps of the water cycle! Add the beads in the following order:

Add the white beads to represent clouds.

Add the light blue beads to represent precipitation.

Add the brown beads to represent the soil where water is absorbed and filtered into ground water.

Add the dark blue beads to represent the rivers, lakes, and oceans that collect water.

Add the green beads for trees, plants and grass where the water is absorbed.

Add the yellow beads to represent the sun, which is responsible for evaporation.

Add the clear beads to represent water in the form of gas vapour that returns to the atmosphere.
