

Read the clues and write your answer in the puzzle, starting in the square that has the same number as the clue. Be certain your answer works both across and down. Using the words listed in the word bank below, fill in as much of the puzzle as you can.

Across

- 3. Glands that make sperm
- 5. Combination of sperm and fluid
- 8. One gland that provides even more fluid to help nourish and protect sperm
- 10. Male reproductive cell
- 11. Opening at the end of the digestive system

Down

- 1. Two small pouches that make fluid that gives sperm some energy to help them move
- 2. Body organ where urine (pee) is stored
- 4. Urine and semen move through this tube
- 6. Tubes that carry sperm out of the testicles
- 7. Male external (outside the body) sex organ
- 9. External (outside) sac that holds the testicles
