

Learning Activity

Substance use trivia game

Materials

- [Question and answer trivia cards](#)
- White board and markers to track scores
- Bells or other signalling devices (if teams are ringing in to answer)

Instructions

- Divide the class into 2 or more teams. Teams may take turns responding to questions or "ring in" to answer first.
- Read a question from one of the trivia cards aloud
- Allow one team to answer the question. If the answer is correct, award that team one point. If the answer is incorrect, permit the other team(s) to answer.
- Confirm the correct response, expanding on it if students appear confused
- Repeat with the rest of the trivia cards

Variations

- Students may play this game in small groups or pairs as an enrichment activity after finishing other work
- Allow students to do research to create additional trivia questions and answers and integrate those into the game
- **Quick Review:** use cards at a later date for quick review whenever time permits
