

NOTICE OF PUBLIC INFORMATION CENTRE

Fort Erie Elevated Tank Municipal Class Environmental Assessment and Enhanced Conceptual Design

Niagara Region is undertaking a Class Environmental Assessment (Class EA) for a new Fort Erie Elevated Water Storage Tank and watermain upgrades.

Niagara Region recently updated its Water and Wastewater Master Servicing Plans, and this project is part of the recommended improvements to the Fort Erie water distribution system. The new elevated water storage tank will combine Fort Erie's water storage systems, improve current pumping operations, reduce long term lifecycle costs and provide capacity to the Fort Erie water system required to support projected growth.

The study follows the Schedule 'B' Municipal Class EA process as set out by the Municipal Engineers Association (October 2000 amended in 2007, 2011 and 2015).

Project Status

Niagara Region has reviewed the existing water system, considered and evaluated suitable sites within the Town of Fort Erie for the construction of a new elevated water storage tank, and necessary improvements to the existing water system.

Public Information Centre (PIC)

We invite you to attend the PIC to view the displays and provide comments.

The PIC is scheduled for:

Date: Wednesday, Nov. 13, 2019
Time: 6 - 8 p.m.
Location: Town Hall Atrium
 1 Municipal Centre Dr.
 Fort Erie, ON

The PIC will provide a summary of the Class EA process, the existing improvements that need to be addressed, potential sites that were considered for a new elevated water storage tank, and evaluation of the shortlisted sites.

Public consultation is critical to the success of the study. We encourage any interested parties to get involved and provide their opinion or comments. Should you have any questions or concerns, please contact one of the following project team members:

Rika Law, P.Eng, PMP®

Project Manager and Associate
