

A network diagram background consisting of a series of interconnected nodes and lines, forming a complex web-like structure. The nodes are represented by small circles, and the lines are thin, connecting the nodes in a non-linear fashion. The background is dark gray, and the network diagram is composed of light gray lines and nodes.

CONNECTING MORE PEOPLE TO MORE POSSIBILITIES

Niagara  Region

Why We're Here Tonight

- Overview of the project
- Planned work and construction limits
- Construction timing
- Expected impacts during construction
- Questions and project updates

Where the Project Is

McLeod Road (Regional Road 49) from Oakwood Drive to Wilson Crescent

What Work Is Planned

Road and streetscape improvements

- Reconstruction of McLeod Road within the project limits
- New asphalt
- New sidewalks and multi-use path
- New curb and gutter

Underground infrastructure

- New storm and sanitary sewer
- New watermain

Traffic and corridor improvements

- Upgraded traffic signal at Dorchester Road and McLeod Road
- Dual left-turn lane on Dorchester Road travelling west onto McLeod Road
- New traffic signal at Jubilee Drive and Sharon Avenue
- Utility relocations – overhead and underground
- New retaining wall over the Hydro Canal
- Upgraded roadway lighting
- Landscaping and restoration

When Construction Is Expected

- Construction and related improvements are expected to begin by September 2026
- Project completion by March 2028
- Work will likely be carried out in stages over multiple construction seasons
- Schedule may be affected by weather, utilities, and field conditions

What to Expect Before Construction

- Nearby residents and businesses will receive notice before construction begins
- Pre-construction condition surveys will be requested for some properties
- Properties owners will be contacted in advance
- Surveys help document existing property conditions

What to Expect During Construction

- Temporary lane restrictions and traffic changes
- Construction noise, dust, and equipment in the area
- Temporary impacts to sidewalks, walking routes, and nearby properties
- Changing work zones as construction progresses
- Advance notice will be provided for major disruptions where possible

How Access, Traffic, and Services Will Be Managed

- Access to homes and businesses will be maintained where feasible
- Temporary impacts to driveways may occur during certain stages of work
- Traffic will be managed through temporary restrictions, signage and lane adjustments
- Temporary service disruptions may be required during some construction activities
- Advance notice will be provided for planned shutdowns or significant disruptions

How to Stay Informed

- Project updates will be shared by Niagara Region as construction progresses
- Updated project information will be available on the Niagara Region website
- Questions can be directed to the project team
- We welcome your questions and comments throughout the project
